

I Pannelli

Lo stile dell'Ingresso

I Pannelli Lo stile dell'Ingresso

I pannelli in HDF idrorepellenti sono particolarmente adatti per l'utilizzo outdoor: garantiscono nel tempo la bellezza della tinta unita o dell'effetto legno e assicurano il mantenimento delle prestazioni e delle proprietà di isolamento termico-acustico del portoncino.

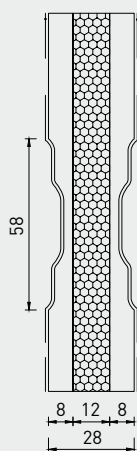

Da 28 mm di spessore, con intercapedine coibentata, i pannelli possono avere disegni incisi (pantografati) o a rilievo (bugnati) con o senza vetro e con inserti. La scelta del portoncino, del colore, dell'eventuale vetro e degli accessori è fondamentale per caratterizzare l'ingresso con stile.

Caratteristiche

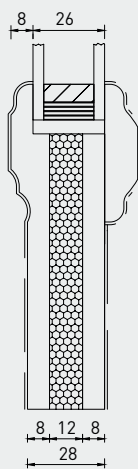

Superficie a vista realizzata con l'impiego di pellicole in PVC-Acrylic con esclusivo e brevettato sistema di riflessione dei Raggi UV fino all'80%.

Anima in Pannello di fibre di legno a media densità per ambienti umidi (WJ Exterior), realizzato solo con impiego di legno proveniente da conifere.
